Products Benefits

- ✓ Eco friendly and plastic-free
- ✓ Honeycomb structure for strength and durability
- ✓ Versatile product protection of glass bottles, china parts, tiles, fragile components, manufacturing parts

Description

These protective paper sleeves offer a sustainable, cost-effective, and versatile solution for protecting a wide range of delicate items for example shaped glass bottles and other breakable shapely items. The innovative hexagonal design ensures both stretch, strength and flexibility, made from paper and compatibility with various packing options making them a convenient choice for businesses committed to environmentally responsible packaging practices.
